Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants representative explained the nature of the claimed invention. The Examiner indicated to Applicants representative that the reintroduction of the corrected cell into the correction process was redundant and functionally equivalent to the prior art, Cobb, teaching that the cell is iteratively corrected. The Examiner explained that there is not functional or patentable distinction between the claims and the reference and further that the Examiner had no recommendations with respect to amendments to overcome the prior art. Applicants representative stated that he understood the Examiners position with respect to the interpretation of the claims in view of the prior art and that he would attempt to submit further amendments in order to overcome the rejection.
